One or two individuals, however, have been offering the ordinary kind which they make under the name of Farina Crackers, and have succeeded in selling them to a small extent.

The selling of such Crackers for Farina has a tendency to injure the reputation of TRUE FARINA CRACKERS MADE

being properly exposed. FARINA CRACKERS ARE MADE ONLY BY MR. WING.

The whole business requires great care and good judgment, and must be carried on extensively in order to make it successful or profitable.

The objects to be attained by Mr. WING were to produce a superior article at a price suitable for all classes. For this he has labored long, and subjected himself to an adequate outlay of capital.

has labored long, and subjected himself to an adequate outlay of capital.

The pretense, therefore, on the part of any one else, that they make FARINA CRACKERS, is simply a device resorted to in the hope of selling more of an article than they otherwise would do, if offered under the proper name.

With the view of a largely-extended business, and expected reduction in the cost of material, Mr. WING has continued for some time past the present low price for his crackers.

It has been freely asserted by prominent Cracker-Bakers in the City of New York, that with the great amount of handlabor bestowed on WING'S FARINA CRACKERS, it is impossible for him to realize a profit at the present price.

This to a certain extent is true, while Wheat continues at the advanced price, but Mr. WING'S object is to place his CRACKERS in the market at a rate that will enable all persons to see them freely, and not advance the price, unless absolutely necessary.

The increased use of WING'S FARINA CRACKERS, with the commendatory remarks of Parents. Teachers, and Physicians, as well as many persons in various positions in life, whose powers have been more or less weakened by sedentary habits or occupations, is strong proof of the healthful and beneficial results which have attended their use.

Their great nourishing properties, and the case with which the stomach digests this pleasant food, are well established, and there can be, on testing them, no doubt of this fact, viz: that the same weight of WING'S CRACKERS will make more good blood, and act more kindly upon the delicate texture of the stemach, than anything else ever introduced in this or any other form of bread.

All true Fairina Crackers have the name WING stamped on them, and those wishing to buy should ask for WING'S CRACKERS.

CRACKERS.

FARINA CRACKERS ARE MADE ONLY BY MR. WING. They are not made by others because the process is unknown to them, nor have they suitable works—these require a scientific arrangement, and great care is necessary in passing the grain through the different processes.

The practice required in order to prepare and work the materials successfully is a serious impediment to others.

The impossibility of arranging the sponge without experience in this particular branch or kind of material, and the critical knowledge indispensable in producing such an extremely light and nourishing substance as WING'S FARINA CRACKERS, cannot be accomplished without consummate skill and the means necessary to carry it out.

The whole business requires great care and good judgment and must be carried on extensions. MARRIED and SINGLE WOMAN'S MEDICAL COMPANION; WHOLE ORIGIN MYSTERY OF LIFE.

THE AWFUL MYSTERY EXPLAINED !REVELATION of the TERRIBLE DEATH SECRET
of the MURDER of DR. HARVEY BURDELL!!

THE NEW YORK MERCURY for this week, which will be ready early To-morrow Morning, will contain a solution of this dread problem, embodied in a Story, from the pen of the most celebrated romancer of America, entitled.

"THE BOND OF BLOOD;

or.

THE DEATH SECRET."

This great local tragedy, which caused such a universal excitement throughout the country, and which has been the subject of speculation and conjecture with not only the people, but the press also, has remained shrouded in the deepest and apparently most impenetrable mystery up to the present time. Now, however, the vail is to be lifted, and the whole tale told, from its earliest beginning to the time when its blood-drenched consummation was accomplished. The world is now to be shown the cause of that frightful but almost justifiable deed—the wrongs and sufferings, long borne and deep, which strengthened the heart and nerved the arm of the AVENGER, to the fulfillment of his deadly purpose.

Some after scene of cool and deliberate perfidy, violent hatted, violuptious temptation, extravagant profligacy, and deep varied colors. The true character of New-York society will be exposed—its wounds probed—its festering corruption laid bare and held up to the gaze of a startled public, that the impocent and unwary may see and avoid the times and pit-falls which surround them, and which swallow up thousands of the thoughtless or vicious every year.

"Vice is a monster of such hideous mien."

That to be bated, needs but to be seen."

and this story will thus fulfill a pure and lofty moral purpose.

Again, it will remove the last taint of obloquy which has been cast upon an innecent family, and restore its honorable position, which the stain of blood has dimity tarnished, in spite of all the decisions of legality and justice. As all the characters who figure in the BOND OF BLOOD

are drawn from nature, the public may expect to recognize among them some who now stand high in society, and who are regarded as incapable of the foul deeds which this revelation shows them guilty of. There are many viliains at heart who wear the guise of honorable—aye, even religious—men, who well tremble with fear and horror at the mark of Cain thus unerringly stamped upon their brows. Those who know the fearliess style of the author of "The Mysteries and Miseries of New-York," will not fail to rely upon the correctness of these disclosures.

disclosures.

A valuable Health Journal for every family.

THE WATER-CURE JOURNAL. THE WATER-CURE JOURNAL.

Devoted to Physiology, Hydropathy and the Laws of Life and Health. With Engravings illustrating the Human System. It is emphatically a guide to health and longevity, and should be in every family. The Tribune says:

"This JOURNAL is bold, earnest and enthusiastic—written with the zeal and energy that nothing but sincere conviction can inspire. In its whole tone and spirit it presents a noble contrast to the vagueness, indecision and technical prattle of many professed scientific journals. The facts which it brings forward in overwhelming abundance are sufficient to startle the old medical profession out of the deepest slumber."

"The admirable Novels of Capt Marryat are nearly out of print, and the editions hitherto published have been very trying to the eyes. We therefore hall with edigat an elegant new edition, printed with large, clear type, on stout, white paper. There are, in sil, twelve volt mes, and each one will contain a neat steel frontispiece. For faithful pictures of human nature, for genuine humor and admirable illustrations of nautical life, there are no better Novels than these of Capt. Marryat's."

Philadelphia Evening Bulletin.
People do not easily weary of the genia and humorous, and the good natured drollery and hearty fun of these lively volumes will obrain for them their due share of attention in the long Summer days which are approaching, even from those who are already familiar with their merits." [Boston Daily Journal.
"We presume that many hampers of those going to smuff the breath of the sea-side, or to ruralize quietly among mountains and meadows, will be heavier for containing them."
